HINTS AT GRAND JURY'S SECRETS?

G. W. Wood, Special Attorney, Makes Startling Statement in East Moline.

SALOONS PAYING TRIBUTE?

Refers to General Impression That an Alliance for Disregard of Law Exists.

"It appears to be the general impression that East Moline saloons have for two years or more been paying bribe money to certain county officials in order that they may be permitted to enjoy the privilege of breaking the law."

This statement, made by Attorney George W. Wood of Moline in an address at a local option meeting in East Moline last evening, is significant because coming from the special attorney employed by the grand jury now in session. While Mr. Wood did not say so, the inference will be drawn that his remarks were inspired at least in part by what has been brought out in the present investigation. Had the investigation not developed evidence in support of the assertion, at any rate, it is probable that Mr. Wood would not have made it in support of his claim that the saloon exercises an influence inimical to the forces of justice.

Will Ask Funds.

Joseph Dale, president of the Local Option league, presided over the meeting, which was held in the Plymouth Congregational church, Rev. Malcolm F. Miller, the pastor, also being heard. A canvass for funds to prosecute the campaign will be started soon.

CENSUS SHOWS RAPID GROWTH OF SUBURBS

In the Highland and Frederickson's additions where a census has been completed by the committee named early in the week by the Colona Avenue improvement association, 500 people have been enumerated. Before the Fairview district is covered it is believed that 700 will have been listed, showing the rapid growth of that locality. The committee will make its report to the association March 6 and then the matter will be laid before the Tri-City Railway company as an argument for the extension of the line on Fourth avenue up the hill on Twenty-seventh street to Colona avenue and east on that thoroughfare.

Every article in the rooms down stairs that could be moved were used as weapons, and the entire neighborhood was in an uproar. Mrs. Burenki, hearing the commotion down stairs rushed down the back stairs and fled.

BOY IS INJURED WHILE COASTING

Raymond Moore, 12 Years of Age, in Serious Condition at City Hospital.

Raymond Moore, 12-year-old son of Mr. and Mrs. Oscar Moore, 845 Fifteenth and three-fourths street, is in a serious condition at the City hospital, as result of a coasting accident which occurred yesterday afternoon. His right leg is bruised and acrated and he is suffering from other injuries about the body. Dr. A. H. App, who is attending him, says the lad will recover.

Yesterday afternoon, Raymond was assisting two other boys in pulling a bobbed up the Sixteenth street hill. When they reached Seventh avenue, another sled carrying several boys, came down the incline at terrific speed, striking the Moore boy and dragging him several feet. On account of an abrupt curve in the track at Seventh avenue, the injured lad failed to observe the approaching sled. He was picked up in a semi-conscious condition and rushed to the hospital. It was at first thought that the boy's leg was broken, but an examination revealed no fractures.

Two Women Injured.

As Mrs. Albert Hemmington stepped out of her home at 1141 Sixth avenue yesterday afternoon, she fell on the slippery sidewalk and broke a bone in her left hand.

A bone of the right arm of Mrs. Marie Lofquist, 2012 Fourteenth and three-fourths street, was fractured yesterday evening, when she fell on the sidewalk in front of her home.

STATE SUPREME COURT REVERSES TWO CASES

The state supreme court today reversed and remanded two cases involving the city of Moline. One is that of the city of Moline vs. the C. & B. & Q. Railroad company and the other is brought by the city against the Tri-City Railway company, defendants in each case having objected to the amounts assessed against them for public improvements. The Burlington was assessed \$4,000 for the paving of Third avenue and the Railway company \$1,000 for a storm drain. Appeals were taken by the defendant companies.

CHILD HURT IN FALL FROM ITS HIGH CHAIR

Purchase New Fields.

The Moline Channel Ice company has purchased a new field, three-and-a-half acres on the Iowa side, opposite Smith's island. After the proposed improvements have been made at the rapid, this will eventually make an excellent field. Officers of the company consider the purchase a splendid investment.

SHOP TRAIN WILL CONTINUE TO RUN

Movement for Removal Will Receive No Aid from Greater Moline Committee.

No further effort to induce the Rock Island road to remove its shop train from Davenport and Rock Island to its plant at Silvis will be made, it was stated at the weekly meeting of the Greater Moline committee Friday. A. G. Abraham, head of the committee named to look into the matter, reported to this effect. He said the company had given assurance that no change was anticipated. The matter was first agitated by the East Moline Commercial club and was taken up before the Greater Moline committee, where the sentiment appeared favorable to continuing the train, at least till Moline and East Moline are better provided with houses to accommodate those whose removal here from Davenport and Rock Island would be necessitated by lack of means of transportation to and from their work.

Nelson Greene, head of the committee named to consider the improvement of Browning field, reported that it had been decided to put the matter up to the city commission. If a portion of the two-mill tax for park purposes could be diverted for the improvement of the field this should be done, in the opinion of the committee. If not the city should at least bear part of the expense. Another plan is for the city to lease the park to some corporation which may be given authority to charge admission and lay aside a certain percentage of the receipts to reimburse itself for improvements made. When the indebtedness is canceled the control of the park should revert to the city, under this arrangement. This will make it possible for a baseball association to take over the grounds and improve them as desired.

The committee was instructed to confer with the city authorities.

Old Nursery Game Is Rule of Life for a Multitude Epworthians Are Told.

Too many people in this world go through life observing the rules of the nursery game "Simon says thumbs up," said Rev. L. F. Havermale, pastor of the East Moline Methodist church, in an address last evening at the annual banquet of the Epworth league of the First Methodist church. It was his first appearance before a Moline audience and he made a good impression. He urged his hearers to develop initiative and originality.

W. M. McIntyre of Rock Island presided as toastmaster and in his usual happy manner introduced the speakers. Rev. W. H. Blanche of Davenport spoke on "What the Young Christian Should Know and Do." Music was furnished by Earl L. Baker and the

An election is being held in the township today for the purpose. If the matter carries a single commissioner will be chosen at the April election.

MISSING MAN IS OWNER OF A FARM

Efforts to Find John Janyinka Who Disappeared in November Are Renewed.

POLICE OPEN HIS TRUNK

Find Titles to Land With Two Payments to Make and Money in Bank Were Left Behind.

That John Janyinka, who disappeared last November and has not since been heard from was the owner of a 40-acre farm in Minnesota was learned Friday afternoon when Attorney Albert Huber, employed by William Janyinka, brother of the missing man, asked the police to open John's trunk, which is at the police station. Two payments are yet to be made on the land and if these are not met it will revert to the land company from which it was bought. A payment is due in July. The missing man also left money in a Moline bank.

Fear There Was Violence.

Circumstances surrounding the disappearance lead to the belief that violence was involved in the case. Janyinka complained of feeling ill and left his work at Williams & White's during the forenoon of the day of his disappearance. He was not seen afterward. His clothing, watch and trunk were left in his room at the home of William Jaeschke, 339 Tenth street. Since then Jaeschke's have moved and not knowing what to do with the property they turned it over to the police.

Under the direction of Mr. Huber fresh efforts will be made to ascertain some trace of Janyinka.

AFTER THE TEMPEST.

The Genial Calm That Settled Over the Pretty Schoolma'am.

A pretty schoolma'am once taught school in a Long Island village. All the young fellows for miles around were mad about her, but the schoolma'am was proud, and none of the boys seemed to stand the ghost of a chance.

Young Jim Brown, the judge's son, was the best looking chap in the town, and Jim probably loved the schoolma'am more than any of her other suitors, but he never laid the pluck to declare himself. He felt too small and mean before the beauty and learning of the schoolma'am. But one day, the schoolma'am being away on a visit in New York state, Jim asked advice of the editor. The editor said: "Take the bull by the horns and insert an announcement of your forthcoming marriage in my society column. It will cost you only 50 cents."

So Jim inserted an announcement to the effect that the schoolma'am and he would be married the next month and would spend their honeymoon at Atlantic City.

Well, a short time after this announcement appeared the schoolma'am came back home. Jim heard on all sides how furious she was. For several days he kept away from her. Then one afternoon as she was coming home from school he ran plump into her in the lane.

She let him know at once what she thought of him and his outrageous conduct. She stormed and raved, and her pretty eyes flashed fire. Jim stood first on one foot and then on the other, and finally he blurted out:

"Well, if you don't like it I can have the announcement contradicted."

"Oh, bother it!" said the schoolma'am. "It's too late now."—Washington Star.

SURROUNDED BY REBELS, GUAYMAS STILL IS IN FEDERAL HANDS

Rebel soldiers near Guaymas (note woman at extreme left).

Guaymas, Sonora, Mexico, Feb. 21.—Since the beginning of the Huerta regime Guaymas has been one of the strategic points in the republic. Though surrounded on every side by victorious rebels, the one thousand federal defenders of the city under General Ojeda have repulsed every attack.

Guaymas is the most important port in Mexico and as a shipping center exceeds any other place in the republic.

The importance of controlling this point has not been overlooked by the rebels, who have tried every possible means of forcing its surrender, from bombs thrown from flying machines to a concentrated attack by thousands of determined soldiers.

Guaymas, like Gibraltar, is an almost impregnable fortress. On the west is the Pacific ocean; on the east great mountains with only a narrow pass leading to the city. The rebels have succeeded in coming within a mile
